

# Automatic Pool Covers

A SIMPLE GUIDE TO CHOOSING YOUR COVER SYSTEM

*oceaa*<sup>®</sup>

# Introduction

Welcome to the world of Ocea. We're the leading manufacturer of fully automatic pool covers and thanks to our innovative approach, we have a solution to suit every pool, whether indoor or outside. Our covers are available in a wide range of colours and finishes and are made using cutting edge materials which work hard to provide safety, retain heat, reduce condensation and algae, resist UV - all whilst providing a spectacular finish to your pool. This brochure will introduce you to our range of systems, colours and finishes and help you to make the right choice for your pool.

- Suitable for all types of Pool
- Made to Measure

### Benefits:

- Suitable for all types of Pool
- Minimal interference for existing Pools as no shell adaptation required
- Made to Measure

# Slat Colours and Properties...

We offer two material options for our pool covers. Polycarbonate and PVC.

Both materials offer:

- ✓ Temperature resistance and UV protection
- ✓ Shock resistance
- ✓ Rigidity
- ✓ Safety

Polycarbonate is the superior material, offering the highest benefits and widest colour range and comes with a 5-year guarantee.

PVC is the more affordable option and is available in a range of classic colours and comes with a 2-year guarantee.

Slat Type and Colour	Solar Property Rating	Anti-Algae Rating	Condensation Mask	Warranty (years)
PC Eclipse Transparent Blue E119	☀️☀️☀️☀️		✓	5
